Design Standard

Wire Labeling

PART 1 - GENERAL

1.01 WIRES SHOULD BE LABELED WITH SLIDE-ON LABELS

1.02 EACH TERMINATION POINT SHOULD HAVE A LABEL WITH THREE LINES:
   
   A. The top line indicates the point name.
   
   B. The second line indicates the current location where the line is landed.
   
   C. The third line indicates where the other end of the wire is landed.
