

## Design Standard

### Wire Labelling

#### PART 1 - GENERAL

- 1.01 WIRES SHOULD BE LABELED WITH SLIDE-ON LABELS
- 1.02 EACH TERMINATION POINT SHOULD HAVE A LABEL WITH THREE LINES:
  - A. The top line indicates the point name.
  - B. The second line indicates the current location where the line is landed.
  - C. The third line indicates where the other end of the wire is landed.
